Number 61

International Resources Available to Environmental Educators

A number of resources that document experiences and learning in the field of environmental education are readily available to researchers, practitioners and planners of environmental education programs. This plethora of resources can be accessed through various web sites readily available to the users through the Internet. We have identified some of the periodicals and journals currently available on the database of Educational Resources Information Center/Center of Science, Mathematics and Environmental Education (ERIC/CSMEE). We have also highlighted the focus, availability and cost of these journals for you.

On line, these resources can be accessed by typing

<http://www.eelink.net>

Page down to CLASS-RESOURCES DIRECTORIES, to EE-RELATED EDUCATION SITES that will lead you to ERIC. You will then be able to search ERIC databases by following the appropriate pointers. Some issues of the journals and periodicals identified below are currently available through ERIC. Information about subscription and contribution is also provided here for the reader.

The International Journal of Environmental Education & Information

Focus: Devoted to the study of the environment in the broadest sense, this journal provides a multi-disciplinary forum for those involved directly or indirectly in environmental education and for those who have, or wish to add, some environmental element to their work. It also seeks to promote environmental awareness and education through publishing research, information, experience and knowledge, overviews, reports, etc.

Publisher: University of Salford, UK

Subscription: Published quarterly

Yearly subscription is UK£ 30.00 including postage; add £ 6.00 to Europe outside UK, and £ 9.00 to the rest of the world.

Environmental Education Research

Focus: This international journal helps advance understanding of environmental education through a focus on papers reporting research and development activities. This refereed journal also carries more diverse papers including, for example, conference reviews, retrospective analyses of activities in a particular field, commentaries on policy issues, comparative aspects of an environmental education issue and critical reviews of environmental education provision in a particular country or region. The criteria for acceptance of papers are that they are analytical and critical, that the ideas being discussed are transferable to other educational systems and cultures and are accessible to an international audience.

Publisher: Carfax Publishing Company in conjunction with the University of Bath, UK.

Subscription: Published three times a year.

Annual subscription rates for institutions: UK£ 190.00 and US\$ 310.00 in North America; and for individuals, UK £48.00 and US\$88.00 in North America.
